SOUTH CAROLINA STATISTICAL ABSTRACT
1987–88

SOUTH CAROLINA BUDGET AND CONTROL BOARD
GOVERNOR CARROLL A. CAMPBELL
CHAIRMAN

GRADY L. PATTERSON, JR., State Treasurer
EARLE E. MORRIS, JR., Comptroller General
JAMES M. WADDELL, JR., CHAIRMAN, Senate Finance Committee
ROBERT N. McLELLAN, CHAIRMAN, House Ways & Means Committee
JESSE A. COLES, JR., Executive Director

A Publication of
THE SOUTH CAROLINA DIVISION OF RESEARCH
AND
STATISTICAL SERVICES
Bobby M. Bowers, Director

Preface

The *South Carolina Statistical Abstract* is a comprehensive, single-source reference for economic and demographic statistical data pertaining to the state. Data are compiled from in-house data bases and a variety of federal, state, local, and private sources. In addition to pertinent data for South Carolina, the *Abstract* presents comparative data for other southeastern states and the United States in many of the sections. Every effort is made to obtain the most up-to-date information possible. It is impossible to insure uniformity, but time periods are always stated on the tables.

Located in the *Abstract* are the latest statistics on factors impacting on the state's area and industrial development: manufacturing, importing, exporting, construction, housing, business and trade, employment, banking and finance, wages and prices, taxes, education, climate, parks and recreation, population, vital statistics, etc.

It is impossible to compile and publish the *South Carolina Statistical Abstract* without the continued cooperation and assistance of numerous persons in both public and private agencies who generously contributed much of the data contained in this volume.

We hope you find the *Abstract* useful and informative. Many persons have contributed suggestions which have been incorporated into this volume. We invite your comments and suggestions for future editions.

The State Data Center of the Division of Research and Statistical Services has prepared the 1987-88 South Carolina Statistical Abstract using the latest information available. Census-generated maps were produced by Lynn Shirley at the Social and Behavioral Sciences Lab of the University of South Carolina, using the GIMMS mapping package.

Information and assistance was provided by state and federal agencies and other organizations from around the state. A complete listing of these agencies and organizations is found in the Source Appendix.

Further information may be obtained from the State Data Center:

General Information	
Amy Alexander	734-3788
General Data Requests	
Mike Macfarlane	734-3780
Joyce Hallenbeck	734-3781
Clarke Thompson	734-3897

SECTION 1

STATE RANKINGS

TABLE OF CONTENTS

PAGE

Provisional Resident Population Estimates (July 1, 1986)........................ 9

Population Percent Change (1980-1986)... 9

Land Area in Square Miles (1980 Census)... 9

Resident Population Per Square Mile (July 1, 1986)............................. 9

Percent of Provisional Population 65 and Over (July 1, 1985).................. 10

Net Total Migration (April 1, 1980 - July 1, 1985)............................. 10

Population Projections (July 1, 1990)... 10

Birth Rate Per 1,000 Population (1984).. 10

Map of State Rankings by Percent Population Change (1980-86).................. 11

Map of State Rankings by Net Total Migration (1980-85)......................... 11

Death Rate Per 1,000 Population (1983).. 12

Infant Mortality Rate (1984).. 12

Average Lifetime in Years (1979-81)... 12

Marriages Per 1,000 Population (1985)... 12

Map of State Rankings by Infant Mortality Rate (1984).......................... 13

Map of State Rankings by Average Lifetime in Years (1979-81).................. 13

Divorce Rate Per 1,000 Population (1984).. 14

Physicians Per 100,000 Population (1983).. 14

Hospital Beds Per 100,000 Population (1984)..................................... 14

Hospital Average Daily Room Charge (1986)....................................... 14

Percent of Persons Below Poverty Level (1979)................................... 15

Percent of Population Receiving Public Aid (1985).............................. 15

Social Security Recipients Per 10,000 Population (1985)........................ 15

Medicare Enrollment (1985).. 15

Persons 25 Years Old and Over - Percent With Less Than High School Education (1980).. 16

Persons 25 Years Old and Over - Percent High School Graduates (1980)........... 16

Persons 25 Years Old and Over - Percent College Graduates (1980)............... 16

Public School Teachers Average Salaries (1986).................................. 16

Map of State Rankings by Percent of Persons 25 Years Old and Over Who are High School Graduates 1980.. 17

Map of State Rankings by Average Teacher Salary (1986 - Public Schools)........ 17

Median Value Owner-Occupied Housing Units (1980).............................. 18
Median Gross Rent (1980).. 18
Construction Contracts Value (1985)..................................... 18
New Housing Units Started (1985).. 18
Map of State Rankings by New Housing Units Started (1985)..................... 19
Map of State Rankings by Median Value of Owner-Occupied Housing Units (1980)... 19
Motor Vehicle Registrations Per 1,000 Population (1985)....................... 20
Motor Vehicle Accident Deaths Per 100,000 Population (1983)................... 20
Crime Rate Per 100,000 Population (1986)................................ 20
Federal and State Prisoners Per 100,000 Population (1985)..................... 20
Civilian Labor Force Total (1985)....................................... 21
Civilian Labor Force Female Participation Rate (1985)......................... 21
State Government Full-Time Employees Per 10,000 Population (1985)............. 21
State Government Full-Time Employees Average October Earnings (1985).......... 21
Nonagricultural Employment Total Percent Change (1980-85)..................... 22
Manufacturing Employment Percent Change (1980-85)............................ 22
Services Employment Percent Change (1980-85)................................ 22
Unemployment Rate (1985)... 22
Map of State Rankings by Percent Change in Manufacturing Employment (1980-85).. 23
Map of State Rankings by Unemployment Rate (1985)............................ 23
Map of State Rankings by Retail Trade Sales Per Capita (1985)................. 24
Map of State Rankings by Per Capita Income (1986)............................ 24
Production Workers Average Hourly Earnings (1985)............................ 25
Retail Trade Sales Per Capita (1985).................................... 25
Net Farm Income (1985)... 25
Per Capita Income (1986)... 25
State Taxes Per $1,000 of Income (1985)................................. 26
State Government General Revenues Per Capita (1984)........................... 26
State Government General Expenditures Per Capita (1984)....................... 26
Voting Age Population Casting Votes for President (1984)...................... 26

The following statistical items give, for each state, the value of the item and the state's rank in comparison to other states. The primary source of the rankings is the 1987 edition of the Statistical Abstract of the United States, a U.S. Bureau of the Census publication which includes a selection of social, political, and economic data gathered from statistical publications and unpublished records of numerous governmental and private agencies. The rankings presented in this chapter are intended to serve as only a general reference as to where South Carolina stands in relation to other states on the various statistical items, and users are discouraged from drawing conclusions from the rankings without consulting the original sources for definitions and concepts of the data on which the rankings were developed. For information concerning these sources, contact the South Carolina State Data Center at 734-3788.

STATE RANKINGS

	PROVISIONAL RESIDENT POPULATION ESTIMATES JULY 1, 1986		POPULATION PERCENT CHANGE 1980-1986		LAND AREA IN SQUARE MILES (1980 CENSUS)		RESIDENT POPULATION PER SQUARE MILE JULY 1, 1986

Value of Mineral Production in South Carolina (1984-1986) 54

Map of Mineral Commodities Mined in South Carolina (1986) 54

AGRICULTURE
Glossary

Agriculture Industry - Includes SIC industry categories: Agricultural Production, Crops; Agricultrual Production, Livestock; Agricultural Services, Except Horticultural; and Horticultural Services.

Farm - A farm, as defined for the 1982 and 1978 censuses, is any place from which $1,000 or more of agricultural products were sold, or normally would have been sold, during the census year.

Farm Marketings - Farm marketings represent agricultural products sold by farmers multiplied by prices received per unit of production at the local market.

NOTE - Discrepancies found in figures in this section are due to the different sources of information. Some information was obtained from the U. S. Bureau of the Census, which conducts a Census of Agriculture every five years. Preliminary reports are published on a flow basis for all counties in the United States with ten farms or more, and for each State and the United States. Data for the States published in the 1978 Census of Agriculture were obtained through a combination of mail list enumeration and personal canvass of a sample of area segments, which provided estimates for farms not on the mail list. For 1982, the area sample survey was not conducted; thus, the data represent only farms on the mail list.

Other charts found in this section were provided by the South Carolina Agricultural Statistics Service. This Service is a cooperative effort between the Statistical Reporting Service of the U. S. Department of Agriculture and the Department of Agricultural Economics and Rural Sociology and Agricultural Experiment Station of Clemson University. State funds make it possible to prepare and publish more detailed statistics for South Carolina more frequently. Differences between the sets of figures result from different reporting methods. Further information can be obtained from sources listed in the Appendix.

Gross Farm Income - Includes four principal components: (1) cash receipts from farm marketings of farm pr~~oducts repr~~esent gross receipts from commercial market sales as well as loans (net redemption) made or guaranteed by the Commodity Credit Corporation and other purchases under price support programs; (2) government payments to farmers are those made directly to farmers in connection with farm programs; (3) noncash income includes the value of farm production consumed directly in farm households and the rental value of housing provided by farm dwellings--because expenses associated with these products and the dwellings are included in the production expense estimates, noncash imputations do not add on a dollar-for-dollar basis to the net; (4) other farm income is cash income from sources such as recreation, machine hire, and custom work.

Farm Production Expenses - Include current farm operating expenses for such items as wages paid to hired labor (in cash and in kind), outlays for repairs of equipment and operation of the farm, as well as purchases of oil, feed, seed, and livestock. Overhead-type costs include charges for depreciation and other capital consumption, taxes on farm porperty, and interest on the farm mortgage debt.

Net Farm Income - Represents what is left of gross farm income after deducting farm production expenses.

Forest Land - Land at least 16.7 percent stocked by forest of any size, or formerly having had such tree cover, and not currently developed for nonforest use.

Commercial Forest Land - Forest land producing or capable of producing crops of industrial wood and not withdrawn from timber utilization.

Unproductive Forest Land - Forest land incapable of producing 20 cubic feet per acre of industrial wood under natural conditions, because of adverse site conditions.

Productive-Reserved Forest Land - Forest land sufficiently productive to qualify as commercial forest land, but withdrawn from timber utilization through statute or administrative designation.

Forestry and Fisheries Industry - Includes SIC industry categories: Forestry and Fishing, Hunting, and Trapping.

Mining Industry - Includes SIC industry categories: Metal Mining; Coal Mining; Crude Petroleum and Natural Gas Extracting; and Nonmetallic Mining and Quarrying, Except Fuel.

NUMBER OF FARMS, LAND IN FARMS, AND AVERAGE SIZE OF FARMS IN SOUTH CAROLINA AND THE UNITED STATES 1/
1982 - 1987

YEAR	NUMBER OF FARMS (THOUSANDS)		LAND IN FARMS (THOUSAND ACRES)		AVERAGE SIZE OF FARM (ACRES)

Note: 1982 Census of Agriculture data by counties adjusted to 1986 National Agricultural Statistical Service (NASS) state totals. The percentage difference between NASS and Census State total is applied to each county and may not be representative for the individual county change, but rather a general trend for the state.

Note: Data are based on the 1980 Census sample. Under the 1980 definition, the farm population includes all persons living in rural areas on places of 1 or more acres from which at least $1,000 worth of agricultural products were sold during 1979. Under the 1970 definition, the farm population includes all persons living in rural areas on a place of 10 or more acres with at least $50 worth of annual sales or on a place of fewer than 10 acres with at least $250 worth of agricultural sales.

VALUE OF MINERAL PRODUCTION IN SOUTH CAROLINA
1984 - 1986

MINERAL COMMODITY	1984	1985	1986
Clays	$ 34,509,446	$ 37,695,224	$ 37,980,000
Sand and Gravel	31,986,353	31,986,353 2/	33,864,000
Stone:			
Crushed (granite, limestone, marl)	72,500,000 1/	72,519,734	76,700,000 1/
Dimension	1,092,000 1/	541,019	533,000 1/
Fuller's earth, peat, mineral specimens, vermiculite, manganiferous ore (for brick manufacture), mica (scrap and for brick manufacture), gold.	13,061,998	16,735,191	18,978,000
TOTAL	$153,149,797	$159,477,521	$168,055,000

1/: Estimated.
2/: Sand and Gravel producers are canvassed every other year; therefore, the 1984 value is used.

Note: The value of mineral production in South Carolina in 1986 increased about 5 percent, to an estimated $168 million. Commodities contributing to the bulk of the value include crushed stone, kaolin, limestone/marl (for cement), sand and gravel, and vermiculite.

BANKING & FINANCE

Glossary

BANKING

Banks - Banks in this country are organized under the laws of both the States and the Federal Government. State-chartered banks are supervised by officials of the respective States. "National" banks are supervised by the Comptroller of the Currency.

Savings and Loan Associations - Unlike banks, are not engaged in deposit banking; primarily involve themselves in credit extension in the form of loans.

REVENUES

General Fund - The State's largest primary revenue-generating fund group. It represents a composite of revenue sources derived from taxation, licenses, fees and all institutional and departmental revenues or collections, including income from the sale of commodities and services or other activities which provide funds for the fiscal operation of State government. The various revenues making up the General Fund are categorized into two source descriptions for accounting purposes in the fiscal State Budget: Regular Sources and Miscellaneous Sources.

> **Regular Sources** - Revenues collected on an established basis from year to year. These include the Sales and Use Tax, Income Taxes, (individual and corporation), and an All Other segment comprised of twenty-eight additional tax, interest, assessment and/or license accounts.
>
> **Miscellaneous Sources** - Revenue that is not as predictable as collections from Regular Sources. Generally, this classification incorporates: (1) those receipts which do not always recur in succeeding years, often labelled "windfall revenues;" (2) first-year collections of newly enacted taxes; and (3) line-item transfers of agency appropriations to the General Fund for specific purposes.

Aid to Subdivisions - Distribution of State aid to counties and municipalities. Except for a reimbursement to counties for a homestead exemption (property tax), funds are allocated on a percentage basis from total collections of designated State taxes. The distribution formula is prescribed by statute and is subject to change. Types of funds: (1) Unrestricted--such monies may be used for the general operations of the county, city, or town; (2) Restricted--the expenditure of such monies is designated, by laws or regulations, to a particular project or program.

EXPENDITURES

General Fund (South Carolina) - The State expenditure data is limited to General Fund operations only and will differ from the consolidated expenditure statements outlined in other S. C. financial agency reports. Expenditures are classified by functional groups. The following appropriations are excluded: (1) Capital Outlay and Non-Recurring--funds utilized for capital improvements and other special projects, i.e., new construction, expansion and/or renovation of the physical plant; (2) All Federal appropriations except "recurring" Revenue Sharing appropriations; (3) Highway Fund--expenditures for the operation of the S.C. Department of Highways and Public Transportation.

State Government - This category refers to the governments of the 50 states which constitute the United States.

Local Government - The Bureau of the Census classifies local governments by five major types--county, municipality, township, school district and special district.

COMPARATIVE STATEMENT OF CONDITION OF SOUTH CAROLINA STATE BANKS
AS OF JUNE 30, 1983-1987
(IN THOUSANDS)

ASSETS AND LIABILITIES	1983	1984	1985	1986	1987

BUSINESS & INDUSTRY

Glossary

Establishment - A single physical location where business is conducted or where services or industrial operations are performed. Establishment counts are based on a determination of active status as of anytime during the year.

Nonclassifiable Establishments - Include establishments, typically new businesses, that cannot be classified in any major industry group because of insufficient information.

Annual Payroll - The combined amount of wages paid, tips reported, and other compensation, including salaries, vacation allowances, bonuses, commissions, sick leave pay, and the value of payments in kind (such as free meals and lodging) paid to employees before deductions for social security, income tax, insurance, union dues, etc.

Industry Classification - Industry classifications are based on the major industry groups of the 1972 edition of the Standard Industrial Classification Manual (SIC) and the 1977 supplement to that manual.

Wholesale Trade - Includes all establishments with one or more paid employees primarily engaged in selling merchandise to retailers; to industrial, commercial, institutional, farm, or professional users; or to other wholesalers. Companies selling products to which they have title, as well as those acting as agents or brokers in buying merchandise for (or selling merchandise to) others, are included. Excludes governmental organizations classified in the covered industries except for wholesale liquor establishments operated by State and local governments.

Retail Trade - Includes all establishments primarily engaged in selling merchandise for personal or household consumption and rendering services incidental to the sale of the goods. Excludes governmental organizations classified in the covered industries except for liquor stores operated by State and local governments.

Foreign Affiliation - Defined in accordance with the U.S. Department of Commerce definition, which encompasses "a wide degree of foreign ownership and control with ranges from the complete and absolute to a shared but dominant position to a level of ownership and control that simply permits a significant influence over company plans." Companies with foreign affiliation are foreign-owned directly by non-U.S. companies and directly by U.S. companies which are, in turn, owned by non-U.S. companies.

CLIMATE & GEOGRAPHY

Glossary

Heating Degree-Day - A temperature index defined as the number of degrees that the actual average temperature for the day is below some base temperature (usually 65 degrees Fahrenheit).

Cooling Degree-Day - A temperature index defined as the number of degrees that the actual average temperature for the day exceeds some base temperature (usually 65 degrees Fahrenheit).

Lowest Temperature
Temp. 19°below 0
Caesar's Head, January 1985
Average daily low — 28°

Greatest Monthly Rainfall
33.90 inches — Caesar's Head
February, 1969
Average rainfall
in February — 6.45 inches

Highest Temperature
Temp. 111°— Camden,S.C.
June, 1954
Average daily high
in June — 87°

Greatest Rainfall in 24 Hours
13.25 inches — Effingham, S.C.
July, 1916
Average rainfall daily — .18 inch

Highest Temperature
Temp. 111°— Calhoun Falls, S.C.
September, 1925
Average daily high
in September — 85°

Deepest Snowfall
24 inches — Rimini, S.C.
February, 1973
Average yearly snow — .6 inch

Highest Temperature
Temp. 111°— Blackville, S.C.
September, 1925
Average daily high
in September — 85°

Least Rainfall on Record
27.11 inches — S.C. total
1933
In 1986, the Columbia area alone
received 34.28 inches.

Largest Hailstorm
March 28, 1984
Throughout the state — Mostly golfball size
Upstate averages 1 1/2 hailstorms / year
Midlands averages 1 hailstorm / year
Coastal averages 1 hailstorm every 2 years

Highest Wind Speed
140 miles per hour
Between Savannah and Charleston
Due to Hurricane Gracey
September, 1959
Average wind speed
on coast — 9—11 miles per hour

1/: Surface water withdrawal for Savannah River Plant is 769.04 MGD; industrial surface water usage total minus Savannah River Plant usage equals 429.597 MGD.

Note: Category totals include water purchased by wholesale and retail customers with the exception of purchases from unverified sources, which accounted for approximately 0.3 percent of total water withdrawals.

EDUCATION
Glossary

ELEMENTARY AND SECONDARY EDUCATION

Average Daily Attendance (ADA) - Is the aggregate number of days in attendance for a given period divided by the number of days the school is in session during this period.

Average Daily Membership (ADM) - Is the aggregate number of days in membership for a given period divided by the number of days the school is in session during this period.

Final Enrollment - Enrollment at beginning of the school year plus new enrollments from a non-public school or another state. Withdrawals are not subtracted from the enrollment figures.

Full-Time Equivalency (FTE) for Public School Staff - Is the amount of employed time required in a less than full-time position expressed in proportion to that required in a full-time position with "1" representing one full-time position. The total FTE is derived by dividing the amount of employed time required in a corresponding full-time position.

Schools - The National Center for Education Statistics (NCES) defines a school as a division of the school system consisting of a group of pupils composed of one or more grade groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant, as is the case when the elementary programs are housed in the same school plant.

Regular schools are those which advance a person toward a diploma or degree. They include public and private nursery schools, kindergartens, graded schools, colleges, universities, and professional schools. Public schools are schools controlled and supported by local, State or Federal governmental agencies; private or non-public schools are those controlled and supported mainly by religious organizations or by private persons or organizations.

The Bureau of the Census defines elementary schools as including grades 1 through 8; high schools as including grades 9 through 12; and colleges as including junior or community colleges, regular 4-year colleges, and graduate or professional schools.

School Year - Except as otherwise indicated in the tables, data relating to enrollment and staff refer to the school year, which includes 180 days for students and 185 days for staff. Generally, the school year begins in August and ends the first week in June. Statistics concerning finances are for a 12-month period beginning July 1.

HIGHER EDUCATION

Bachelor's Degree - Requires successful completion of at least four, but nor more than five, years of academic work.

Doctor's Degree - Includes such degrees as Doctor of Education, Doctor of Juridical Science (S.J.D.), Doctor of Philosophy in any field.

First Professional Degree - Signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance and which requires a total of at least six academic years of college work for completion. Examples of first professional degrees are the Doctor of Jurisprudence (J.D.) and Bachelor of Laws (LL.B.), Doctor of Dental Surgery (D.D.S.) and Doctor of Medicine (M.D.) degrees.

Master's Degree - Is customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Technical Education - Programs designed to prepare individuals for employment. Completion of a two-year curriculum leads to an Associate in Applied Science degree.

Unduplicated Headcount - The number of students enrolled in each listed program. A student is counted in only one curriculum. The extension totals are also unduplicated headcount. Although a student in extension may be counted in each program, he is counted only once in the total.

Vocational Education - One-year programs designed to prepare an individual for employment in a specific occupation; normal completion time required is four quarters.

EMPLOYMENT
Glossary

Labor Force - All persons classified in the Civilian Labor Force plus members of the Armed Forces (persons on active duty with the United States Army, Air Force, Navy, Marine Corps, or Coast Guard).

Civilian Labor Force - All civilians who are classified employed or unemployed. (Excludes military personnel)

Nonagricultural Employment - Full- and part-time wage and salary workers who are employed during the week that includes the twelfth of the month. Not included are armed forces personnel, unpaid family workers, proprietors, self-employed persons, and workers in private households.

Occupation - The Occupation Classification System developed for the 1980 Census was developed to be consistent with the 1980 Standard Occupational Classification (SOC) Manual, and consists of 503 specific occupation categories arranged into 6 summary and 13 major occupation groups.

Industry - The Industry Classification System developed for the 1980 Census consists of 231 categories classified into 13 major industry groups. The 1980 Census classification was developed from the 1972 Standard Industrial Classification (SIC) Manual and the 1977 supplement to that manual.

Unemployment Rate - Persons are classified as unemployed if they are civilians 16 years old and over and (a) are neither "at work" nor "with a job but not at work," (b) are looking for work, and (c) are available to accept a job. The unemployment rate is the total number of unemployed people as a percent of the civilian labor force.

Equal Employment Opportunity (EEO) Special File - Census figures on number of workers by occupation have generally been accepted as estimates of the number of workers who are "skilled". The number of "available skilled workers" is often needed for affirmative action plans or other EEO-related activities. The EEO Special File addresses this need for work-experience data by furnishing counts of people in specific occupations.

Occupational Injury/Illness Incidence Rate - The number of injuries and/or illnesses, or lost workdays per 100 full-time workers. The rate is calculated by multiplying the number of injuries and/or illnesses, or lost workdays by 200,000 hours (base for 100 full-time equivalent workers working 40 hours per week, 50 weeks per year) and dividing the result by the total hours worked by all employees during the calendar year.

CIVILIAN LABOR FORCE, EMPLOYMENT, AND UNEMPLOYMENT IN SOUTH CAROLINA
1980 - 1986
(IN THOUSANDS)

YEAR	CIVILIAN LABOR FORCE 1/	TOTAL EMPLOYMENT 2/	TOTAL UNEMPLOYMENT	UNEMPLOYMENT AS PERCENT OF LABOR FORCE
1980	1,389.0	1,293.0	96.0	6.9
1981	1,426.0	1,306.0	120.0	8.4
1982	1,496.0	1,334.0	162.0	10.8

1/: The labor force data in this table are adjusted to the Current Population Survey Benchmark, and represent employment and unemployment by place of residence. These data are not comparable to place-of-work data published in other series. Total employment includes workers involved in labor disputes, agricultural workers and non-agricultural self-employed, unpaid family, and domestic workers.

2/: The Rock Hill MSA, which became part of the Charlotte-Gastonia-Rock Hill, NC-SC MSA, in 1982, includes all of York County; therefore, York County statistics are used.

OCCUPATIONAL INJURY AND ILLNESS INCIDENCE RATES IN THE PRIVATE SECTOR IN THE UNITED STATES AND SOUTH CAROLINA 1/
1975 - 1985

YEAR	UNITED STATES TOTAL CASES	SOUTH CAROLINA			
		TOTAL CASES	LOST WORKDAY CASES	NONFATAL CASES WITHOUT LOST WORKDAYS	LOST WORKDAYS
1975	9.1	6.7	1.9	4.7	39.7
1976	9.2	6.8	2.0	4.8	40.0
1977	9.3	7.1	2.3	4.8	42.8
1978 2/	9.4	7.5	2.8	4.7	46.1
1979 2/	9.5	7.2	2.7	4.5	47.6
1980	8.7	7.0	2.6	4.4	46.2
1981	8.3	6.9	2.6	4.3	43.2
1982	7.7	6.4	2.3	4.1	41.8
1983 2/	7.6	6.7	2.5	4.2	45.8
1984 2/	8.0	6.9	2.7	4.2	43.5
1985	7.9	7.1	2.8	4.3	46.0

1/: Incidence Rates are per 100 full-time workers.

2/: To maintain comparability with the rest of the series, a statistical method was used for generating the estimates to represent small non-farm employers in low-risk industries who were not surveyed.

Note: Data since 1976 excludes farms with fewer than 11 employees.

ENERGY RESOURCES

Glossary

Distillate Fuel - No. 1, No. 2, and No. 4 fuel oils and No. 1 and No. 2 diesel.

Gasohol - A mixture of 90 percent gasoline and 10 percent ethyl alcohol.

Hydro Energy - A term used to identify a type of generating station output in which turbine generators are driven by water power.

Kilowatt (KW) - 1000 Watts

Kilowatt Hour (KWH) - The basic unit of electric energy equal to one kilowatt (1000 Watts) of power flowing through an electric current steadily for one hour.

Natural Gas - A gaseous combustible mixture of several hydrocarbons (including methane, ethane, propane, and butane) and minute amounts of other compounds.

Nuclear Energy - Energy produced in the form of heat during the fission process in a nuclear reactor. When released in sufficient and controlled quantity, this heat energy may be used to produce steam to drive a turbine generator to produce electricty.

Watt - The electrical unit of power or rate of doing work. It is the rate of energy transfer equivalent of one ampere flowing under a pressure of one volt.

GOVERNMENT & POLITICS

Glossary

Governmental Units - A government is an organized entity whose governmental character is evidenced by popular election of the officials or their appointment by public officials, a high degree of public accountability, and the power to raise revenue to provide authorized services. In addition, a governmental unit must have sufficient discretion in the management of its own affairs to distinguish it from the administrative structure of any other governmental unit.

Municipality - A municipality is a political subdivision within which a municipal corporation has been established to provide general local government services for a specific population concentration in a defined area.

Special District - Special districts are local governmental units created to provide specific services that are not being supplied by other governments. These governmental units are known by a variety of titles including districts, authorities, boards, and commissions. A majority of special districts are established to perform a single function, but some have been given authority to provide several, usually related, kinds of services.

STATE OF SOUTH CAROLINA

Entered Union 1788, the Eighth State to ratify the Constitution

NAME DERIVATION: Carolus, the Latin form of Charles. The State was first named for Charles I of England. Later it was renamed for Charles II who granted the land that is now North Carolina, South Carolina, and Georgia to eight of his friends.

NICKNAME: Palmetto State

MOTTO: Dum Spiro Spero (While I Breathe, I Hope)

FLOWER: Yellow Jessamine

BIRD: Carolina Wren

TREE: Palmetto

CAPITAL: Columbia

ELECTED OFFICIALS: Governor - Carroll A. Campbell
Lieutenant Governor - Nick Theodore
Secretary of State - John T. Campbell
Attorney General - T. Travis Medlock
Treasurer - Grady L. Patterson
Comptroller General - Earle E. Morris
Superintendent of Education - Charlie G. Williams
Adjutant General - T. Eston Marchant
Commissioner of Agriculture - D. Leslie Tindal

Governor elected for a four-year term; may serve two consecutive terms.

U. S. SENATORS: Strom Thurmond, Ernest F. Hollings

U. S. CONGRESSMEN (6): Arthur Ravenel
Floyd D. Spence
Butler C. Derrick
Liz Patterson
John M. Spratt
Robin M. Tallon

STATE SENATORS: 46, elected for four-year terms

MEMBERS OF THE HOUSE OF REPRESENTATIVES: 124, elected for two year terms

COUNTIES: 46

AREA: 31,113 square miles, 40th in the Nation

HEALTH & PUBLIC WELFARE

Glossary

Aid to Families with Dependent Children (AFDC) - Financial assistance available to families with children who are deprived of parental care or support due to the absence or incapacity of one or both parents. Payments are based on the differences between income available to the family and the total allowance established under the Consolidated Standard of Need for food, clothing, shelter, utilities, household furnishings, equipment and supplies, personal expenses, medicine (other than prescription drugs), certain school fees, and transportation costs for the members in the budget unit.

Food Stamp Program - A federal, state and local program designed to provide individuals meeting certain income eligibility standards set by the federal government with coupons for food through purchase or as a reduction from their assistance payment. The purchase price of the coupons is less than the dollar value of the goods they can purchase.

Medicare - A federal hospital and medical insurance protection plan enacted in 1965 under the Social Security program. The program was designed to cover persons 65 and over and has been expanded to include persons under 65 who have been entitled to disability checks for 2 or more consecutive years and persons with permanent kidney failure who need dialysis or kidney transplants.

Social Security - A U.S. government program designed to provide continuing income when the individual or family earnings are reduced or stopped because of retirement, disability or death. The program was established in 1935 covering only the worker at retirement but has been gradually extended to include provisions for old age and survivors insurance, contributions to state unemployment insurance, and old age assistance.

Vocational Rehabilitation Services - A state and federal program designed to help those with mental or physical disabilities and those with handicaps to become more employable and get jobs. Services include eligibility determination, designing vocational rehabilitation programs, placing clients in jobs, and follow-up programs after employment.

Admissions	8,943	8,694	9,437	10,052	9,481
Patients Received	9,363	9,041	9,685	10,200	9,932
Patients Separated	9,462	9,239	9,243	9,764	9,952
Average Daily Population	3,448	3,309	3,259	3,244	3,113

1/: Patients Received includes admissions, returns from elopement, and transfers in.

2/: Patients Separated includes regular discharges, elopements, deaths, and transfers out.

3/: Dowdy-Gardner Nursing Care Center opened March 14, 1984. The facility receives no direct admissions, only transfers in.

4/: Patrick B. Harris Psychiatric Hospital opened October 16, 1985.

5/: Detail does not add to total because transfers in and out are included in the data for individual facilities but not in the total.

HOUSING

Glossary

Complete Plumbing for Exclusive Use - Piped hot and cold water, a flush toilet, and bathtub or shower for exclusive use by household members. All facilities must be available continuously. A privy or chemical toilet is not counted as a flush toilet. A bathtub or shower is counted only if it is connected to piped running water.

Contract Rent - Contract rent is the monthly rent agreed to, or contracted for, regardless of any furnishings, utilities, or services that may be included

Family - A family consists of a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The measure persons per family is obtained by dividing the number of persons in families by the total number of families (or family householders).

Household - A household includes all the persons who occupy a housing unit. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements. The measure persons per household is obtained by dividing the number of persons in households by the total number of households.

Housing Unit - A housing unit is a house; an apartment; group of rooms; or a single room, occupied as separate living quarters, or, if vacant, intended for occupancy. Separate living quarters are those in which the occupants live and eat separately from other persons in the building and have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements. Both occupied and vacant housing units are included in the housing inventory, except that tents, caves, boats, vans and the like are included only if they are occupied. Vacant mobile homes are included, provided they are intended for occupancy on the site where they stand. Vacant mobile homes on dealers' sales lots, at the factory, or in storage yards are excluded from the housing inventory.

> **Year-Round Housing Units** - All occupied units plus vacant units which are intended for year-round use. Data on housing characteristics are limited to year-round units. Vacant units held for seasonal use or migratory labor are excluded because it is difficult to obtain reliable information for them. Counts of the total housing inventory include such units.

Value - Value is the census questionnaire respondent's estimate of how much the property (house and lot) or condominium unit would sell for, if it were for sale.

1/: Part of Piedmont is in Greenville county.
2/: Part of Ladson is in Charleston county.

Note: A Census Designated Place is a densely settled population center which is not incorporated as a city, village, or town, but which resembles a municipality in that it can be identified with a name by most people.

INCOME

Glossary

Personal Income - The Bureau of Economic Analysis defines Personal Income as the income received by, or on behalf of, all residents of an area from all sources. It is the sum of wage and salary disbursements, other labor income, proprietors' income, rental income of persons, personal dividend income, personal interest income, and transfer of payments, less personal contributions for social insurance. Although most of the income is in monetary form, there are important nonmonetary inclusions--chiefly, estimated net rental value to owner-occupants of their homes, the value of services furnished without payment by financial intermediaries, and the value of food consumed on farms. Not only individuals, but non-profit institutions, private trust funds, and private health and welfare funds are classed as "persons."

Real Personal Income - Total personal income after adjusting for inflation.

Implicit Price Deflator - An index used to measure personal consumption expenditures based on changes in prices of goods and services.

Money Income - Money Income, as reported by the Bureau of the Census, differs from Personal Income in that it is measured before the deduction of personal contributions for social insurance, and does not include imputed income, lump sum payments, and income received by quasi-individuals. Money income does not include income from private pensions and annuities, and interpersonal transfers such as child support payments. Money Income estimates are usually lower than Personal Income estimates.

Family Income - Income of all members 15 years old and over in a family, summed and treated as a single amount.

Household Income - Includes the income of the householder and all other persons 15 years and over in the household, whether related to the householder or not. Since many households consist of one person, average household income is usually less than average family income.

Median Income - The amount which divides the distribution into two equal groups, one having incomes above the median and the other having incomes below the median. For families, median income is based on the distribution of the total number of units including those with no income. The median for persons is based on persons with income.

Per Capita Income - The mean income computed for every individual, man, woman, and child (and quasi-individuals, in the case of Per Capita Personal Income) in a particular group. It is derived by dividing the total income of a particular group by the total population in that group.

Poverty - Poverty statistics are based on a definition originated by the Social Security Administration in 1964 and subsequently modified by Federal interagency committees in 1969 and 1980. Poverty thresholds are revised annually to allow for changes in the cost of living as reflected in the Consumer Price Index. The average poverty threshold for a family of four persons was $7,412 in 1979.

Persons for Whom Poverty Status is Determined - Poverty status is determined for all persons except inmates of institutions, persons in military group quarters and in college dormitories, and unrelated individuals under 15 years old.

1/: Zero population area.

Notes: Table includes places incorporated since January 1, 1980, and reflects some annexations and consolidations that have occurred since that date.

Bureau of the Census per capita income estimates are based on Money Income, while Bureau of Economic Analysis estimates are based on Personal Income (see Glossary for definitions). Therefore, comparisons between the Bureau of the Census estimates in this table and the Bureau of Economic Analysis estimates presented in other tables should be made with caution.

LAW ENFORCEMENT, COURTS, CRIME, & CORRECTIONS

Glossary

Aggravated Assault - An unlawful attack by one person upon another for the purpose of inflicting severe bodily injury.

Burglary - The unlawful entry of a structure to commit a felony or theft, even though no force was used to gain entry.

Crime Index - The Crime Index is used as a basic measure of crime. The crimes were selected for use as an index on the basis of their serious nature, their frequency of occurrence, and the reliability of reporting from citizens to law enforcement agencies. The offenses of murder, rape, robbery, and aggravated assault are categorized as violent crimes; offenses of breaking or entering, larceny, and motor vehicle theft are categorized as nonviolent crimes. The Crime Index is the total of these offenses that come to the attention of law enforcement agencies.

Crime Rate - The Crime Rate indicates the number of Index Crimes per unit of population, generally per 10,000.

Juvenile - For purposes of juvenile jurisdiction of the district courts, a juvenile or "child" is defined as being, with two exceptions, one who has not reached his or her eighteenth birthday and is not married, emancipated, or a member of the armed services of the United States. The exceptions are where a person has committed, or is alleged to have committed, a criminal offense, including violations of motor vehicle laws; or has violated the conditions of probation previously ordered in a court proceeding. For these latter situations, the statutes provide that a juvenile or child is one who has not reached his or her sixteenth birthday.

Larceny - The unlawful taking or stealing of property or articles of value without the use of force, violence or fraud.

Parole - Release from prison before completion of sentence by the Parole Commission; subject to specified conditions, usually including supervision by an appointed authority and subject to revocation and imprisonment if the conditions are breached.

Probation - Suspension of an active prison sentence by a trial judge; subject to specified conditions, usually including supervision by an appointed authority and subject to revocation and imprisonment if the conditions are breached.

Robbery - Occurs in the presence of the victim to obtain property or a thing of value from a person by use of force or threat of force.

Youthful Offender Act (YOA) - The Youthful Offender Act provides for indeterminate sentencing of offenders between the ages of 17 and 21, extended to 25 with offender consent. The Act allows the court to sentence a youthful offender indefinitely to the custody of the South Carolina Department of Corrections. The period of such custody, however, will not exceed six years.

SOUTH CAROLINA INDEX CRIME TRENDS
1984 - 1986

POPULATION

Glossary

Census Designated Place - A densely settled population center without legally defined corporate limits or corporate powers or functions, but with a definite residential nucleus. Boundaries are drawn by the Census Bureau in cooperation with State and local agencies to include, insofar as possible, all closely settled areas. The term "place," as used by the Census Bureau, refers to a concentration of population, regardless of the existence of legally prescribed limits, powers or functions.

Incorporated Places - These are political units incorporated as cities and towns. There is a concentration of population with legally defined boundaries and legally constituted governmental functions.

Race - Information on race was obtained in the 1980 Census through self-identification; therefore, the data represent self-classification by people according to the race with which they identify themselves.

Spanish Origin - Persons of Spanish origin or descent are those who classified themselves in one of the specific Spanish origin categories listed on the Census questionnaire -- Mexican, Puerto Rican, or Cuban -- as well as those who indicated that they were of other Spanish/Hispanic origin. Persons of Spanish origin may be of any race.

Urban-Rural Residence - The determination of urban-rural residence is made after Census results have been tabulated. Geographic areas are classified as urban or rural on the basis of their population size and/or density at the time of the Census.

Urban Population - All persons residing in areas determined to be Urbanized Areas or in places of 2,500 or more outside Urbanized Areas.

Urbanized Areas - These areas are defined by population density and are composed of an incorporated place and surrounding densely settled areas that together have a combined population of at least 50,000. There is no minimum size for the incorporated place that forms the central city of the area. The boundaries of Urbanized Areas do not generally conform to county boundaries.

1870	705,606	61,011	8.6	644,595	91.4
1880	995,577	74,539	7.5	921,038	92.5
1890	1,151,149	116,183	10.1	1,034,966	89.9
1900	1,340,316	171,256	12.8	1,169,060	87.2
1910	1,515,400	224,832	14.8	1,290,568	85.2
1920	1,683,724	293,987	17.5	1,389,737	82.5
1930	1,738,765	371,080	21.3	1,367,685	78.7
1940	1,899,804	466,111	24.5	1,433,693	75.5
1950	2,117,027	777,921	36.7	1,339,106	63.3
1960	2,382,594	981,386	41.2	1,401,208	58.8
1970	2,590,713	1,250,725	48.3	1,339,791	51.7
1980	3,121,820	1,689,253	54.1	1,432,567	45.9

Note: By Census definition, the urban population is composed of persons living in densely populated areas and in places of 2,500 or more outside urbanized areas. All persons living outside urbanized areas of less than 2,500 or in the open countryside are classified as rural. Data for the years between 1950 and 1980 are based on the current urban definition.

RECREATION & TOURISM

Glossary

Travel - The act of taking a "trip".

Traveler or Tourist - Includes persons going outside their daily commuting zones. State residents traveling on trips away from home are included in the total, along with out-of-state visitors. The estimates include persons traveling for business, pleasure, and personal affairs. Also included are travelers passing through en route to destinations beyond, and parties making short trips, such as weekend or holiday visits. One-day as well as overnight trips are included. Regular commuters are not included.

Trip - A trip occurs every time one or more persons goes to a place 100 miles or more away from home in one day, or is out of town one or more nights, and returns to his origin. Specifically excluded from this definition are: (1) travel as part of an operating crew on a train, plane, bus, truck, or ship; (2) commuting to a place of work; (3) student trips to school or those taken while in school. Also excluded is foreign travel activity in the United States.

Visitor - This term is usually limited to special studies of individual cities or metropolitan areas. It includes those not residing in the area under study who travel away from home overnight or on a day trip of 200 round-trip miles or more and visit the area. As a general rule, total travel impact on an area less the impact of area residents equals visitor impact.

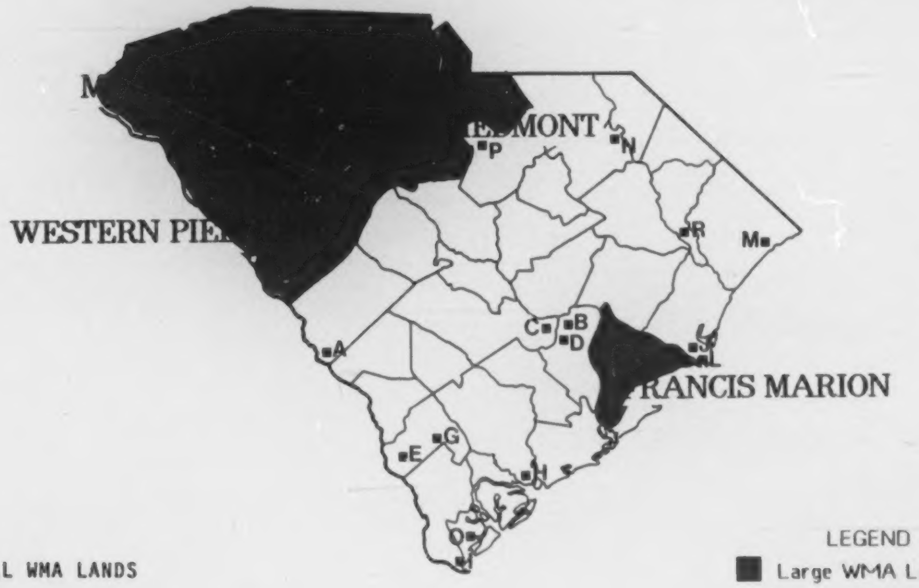
WILDLIFE MANAGEMENT AREAS OF SOUTH CAROLINA



LEGEND

■ Large WMA Lands

Small WMA Lands are indicated by letters

SMALL WMA LANDS

A - Crackerneck
B - Moultrie
C - Santee-Cooper
D - Hatchery
E - Webb
G - Cypress Creek
H - Bear Island
I - Turtle Island
J - Santee-Delta
K - Samworth
L - Santee Coastal Reserve
M - Buist
N - Skufful
O - Victoria Bluff
P - Liberty Hill
Q - Parr Hydroelectric Project
R - Pee Dee Station Site

WILDLIFE MANAGEMENT AREA LANDS

Within the 18 counties of Game Zones I, II, and IV (comprised of the Central, Western and Mountain Hunt Units), the S.C. General Assembly has granted to the S.C. Wildlife and Marine Resources Department Executive Director authority to set regulations, seasons, and bag limits. Deer and turkey on all lands, both public and private, within these 18 counties may be hunted only within the hunt unit boundary lines. WMA regulations apply to all lands within the boundary, both public and private.

LANDOWNER PREMISSION REQUIRED

Possession of a hunting license and a management area permit does not give the holder the right to use private lands. Lands inside the hunt unit boundaries, but not marked by U.S. Forest Service or Wildlife Management Area signs, are considered posted as private property. Permission from the landowner must be obtained prior to entering these lands. Persons not obtaining landowner permission may be charged with trespassing and receive a fine, jail sentence, or both.

TRANSPORTATION

Glossary

Bulk Cargo - Cargo shipped in its original or processed state without packaging. Cargo cannot be physically or mechanically handled without further containment.

Breakbulk Cargo - Cargo, other than containerized, in packages or able to be handled physically or mechanically without further containment.

Containerized Cargo - Cargo shipped in a dry, liquid, or refrigerated state in a metal, fiberglass, plastic, or wooden construction. A container must confine and protect its contents from loss or damage from the elements, and must be susceptible to being handled in transit as a unit. The term container refers to the standard 20-foot (19'10-1/2" x 8'0"), 35-foot (35'0" x 8'0"), or 40-foot (40'0" x 8'0") seagoing container.

Primary Highway System - The primary highway system is composed of all Interstate, U.S. and S.C. numbered highways.

Secondary Road System - The secondary road system is composed of all State-maintained roads, except Interstate, U.S. and S.C. numbered highways.

VITAL STATISTICS

Glossary

Live Birth - The complete expulsion or extraction from its mother of a product of conception, irrespective of the duration of pregnancy, which, after such separation, breathes or shows any other evidence of life, such as beating of the heart, pulsation of the umbilical cord, or any definite movement of voluntary muscles, whether or not the umbilical cord has been cut or the placenta is attached.

Death - The permanent disappearance of any evidence of life at any time after live birth.

Infant Death - Death of a live born infant under one year of age.

Residence Allocation - Vital events in these tables are allocated to the place of residence (county) regardless of the place of occurrence. In the case of a birth, residence is the usual residence of the mother. Deaths are allocated to the residence of the deceased.

COMPONENTS OF CHANGE IN SOUTH CAROLINA POPULATION
1976 - 1987

YEAR	POPULATION		CHANGE	BIRTHS	DEATHS	NATURAL INCREASE	NET MIGRATION
1976-1977	2,941,000	2,989,000	48,000	49,681	24,116	25,565	22,400
1977-1978	2,989,000	3,041,000	52,000	49,175	24,115	25,060	26,900
1978-1979	3,041,000	3,087,000	46,000	50,305	23,968	26,337	19,700
1979-1980	3,087,000	3,120,737	33,737	39,176	18,744	20,432	13,305
1980-1981	3,120,737	3,185,000	64,300	63,167	31,223	31,944	32,400
1981-1982	3,185,000	3,219,000	34,000	51,976	24,484	27,492	6,500
1982-1983	3,219,000	3,252,000	33,000	51,189	25,900	25,289	7,700
1983-1984	3,252,000	3,295,000	43,000	50,711	26,357	24,354	18,600
1984-1985	3,295,000	3,333,000	38,000	51,478	26,862	24,616	13,400
1985-1986	3,333,000	3,376,000	43,000	51,602	26,823	24,779	18,200

INVENTORY OF STATISTICAL SERIES

The Inventory of Statistical Series of South Carolina was originally a publication that contained a description of each agency and a listing of all the statistical series put out by the agency. The descriptions of each State agency have not changed and can be located in other publications, such as the Budget and Control Board Annual Report, Budget Data Report, and the Budget and Control Board Information and Technology Plan.

This Inventory lists the annual statistical series generated by various State agencies. Each State agency was contacted and asked for a listing of its annual publications. This chapter contains a compilation of the information received, and has been arranged in the same sequence as the other chapters. It can be used as a reference in locating additional and more detailed information than is presented in each chapter. Users may contact the contributing agencies directly for more information on their publications.

INVENTORY OF STATISTICAL SERIES OF SOUTH CAROLINA

NAME OF PUBLICATION	DESCRIPTION	GEOGRAPHICAL UNIT COVERED	NAME AND ADDRESS OF COMPILING AGENCY
AGRICULTURE, FORESTRY, FISHING, AND MINING			
Annual Report of the S.C. Dept. of Agriculture	Contains fiscal year activities of the Department in relation to laws enforced and services rendered to farmers and consumers.	State	S.C. Dept. of Agriculture Wade Hampton Building P.O. Box 11280 Columbia, S.C. 29211

SOUTH CAROLINA DIVISION OF RESEARCH & STATISTICAL SERVICES
PUBLICATIONS AVAILABLE

The Division of Research and Statistical Services, in addition to the Annual South Carolina Statistical Abstract, has the following publications available:

SOUTH CAROLINA ECONOMIC REPORT, 1987 **($5.00)**

Data on the economy of South Carolina and the United States in the areas of agriculture, finance, revenues, housing, insurance, labor force, manufacturing, income, prices, public utilities, and transportation. (Annual)

PROFILE OF SOUTH CAROLINA FEMALES **($6.00)**

Data on females in the areas of labor force, employment, education, income, and poverty, presented at the national, state, and county levels. Based on data from the U.S. Bureau of the Census and population projections by the Division.

POPULATION PROJECTIONS FOR SOUTH CAROLINA BY COUNTY 1985-2010 **($8.00)**

Projections for each of South Carolina's 46 counties for the years 1985, 1990, 1995, 2000, 2005, and 2010, cross-tabulated by age (five-year increments to 85+), race (white and nonwhite), and sex.

PROFILE OF SOUTH CAROLINA SCHOOL DISTRICTS **($6.00)**

Social and economic data on the State's 92 school districts. Based on data from the 1980 Census and the State Department of Education.

PROFILE OF INCORPORATED PLACES OF OVER 5000 POPULATION IN SOUTH CAROLINA **($4.00)**

Social and economic data on the 52 incorporated places in South Carolina that had a population of 5000 or more as of the 1980 Census. Based on the 1980 Census and 1982 population estimates from the U.S. Bureau of the Census.

SOUTH CAROLINA'S ELDERLY POPULATION: TRENDS AND PROJECTIONS **($4.00)**

Demographic and socioeconomic data at the national, state, and county levels. Based on data from the U.S. Bureau of the Census and population projections by the Division.

FIRST-HAND OBSERVATIONS OF THE CHARLESTON EARTHQUAKE OF AUGUST 31, 1986, AND OTHER EARTHQUAKE MATERIALS **($13.50)**

Collection of reports and associated data assembled by four principal investigators and writers, developed as an outgrowth of chance encounters and investigative research.

SOUTH CAROLINA GEOLOGY **($8.00)**

Biannual publication containing articles pertaining to the geology and mineral resources of South Carolina.

SOUTH CAROLINA MONTHLY REVENUE LETTER **(Available Monthly, FREE)**

Details revenues collected by the State, by source, for the month, and compares these actual collections with appropriated funds.

SOUTH CAROLINA STATE DATA CENTER NEWSLETTER **(Available Quarterly, FREE)**

Narrative, tabular, and graphic presentations of up-to-date demographic statistics from the U.S. Bureau of the Census and news of Data Center activities, services, and products. Includes statistical profiles of selected South Carolina cities and a Census trivia column.

All publications are available on a prepaid basis, which includes postage and shipping. Please make checks payable to S.C. State Treasurer. To order any of these publications, contact:

SOURCE APPENDIX

Guide to Sources of Statistics

The South Carolina Statistical Abstract is an abstract. It presents as much statistical information as possible in tabular form, but it is also a guidebook to the sources from which the statistics have been obtained. In almost every instance, the issuing agency has additional data, or perhaps more recent information, by the time this publication reaches the user. Most of the sources are as close as the telephone or the nearest library.

State Sources--Most of the State publications are available free of charge, or for a nominal fee, from the agencies which issue them. The State has a system of depository libraries coordinated by the State Library. All State agency publications are supposed to be on file in depository libraries and the State Library.

Federal Sources--Some federal reports are available without charge from the agencies which issue the information, but most federal publications must be purchased from the Superintendent of Documents, U.S. Government Printing Office (GPO), Washington, D.C. 20402 (phone 301/783-3238). Publications purchased from the GPO must be paid for in advance. The Statistical Abstract of the United States is similar in purpose to the South Carolina Statistical Abstract. Users who are interested in information about the nation, its regions, and states are referred to it.

Private Sources--A number of private agencies and associations issue publications or reports which have been used in this edition of the Abstract.

Computer tapes--All tables in the Abstract were prepared by using a computerized word processing system. Individual tables and additional information can be obtained from the South Carolina State Data Center (734-3788).

For the user who requires additional or more specialized information, this section contains the names, addresses, and telephone numbers of contributors to the 1987-88 South Carolina Statistical Abstract. Also included is a listing of South Carolina Affiliate Data Centers, which have been established throughout the state to facilitate access to statistical data at the local level. The affiliate data centers are composed of 10 regional planning councils and 27 libraries. Each affiliate has a basic census reference collection of frequently used statistical reports.
